

Toolkit: How to Use The Fantastic Five Website

Introduction

The Fantastic Five is a website showcasing the companies and their locations in London working to achieve Sustainable Development Goal 12 (SDG 12): Responsible Consumption and Production.

How can we envision this website being used?

- This website will serve as a platform for how companies fine tune their daily operations with the UN Sustainable Development Goals.
- It can also act as a source of inspiration for integrating SDGs into their strategies.
- This site will also be used to showcase companies' commitments to sustainability in an accessible way.

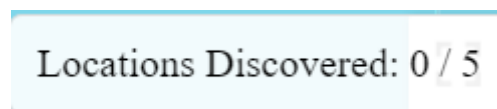

Getting Started

1. Go to the [Resource Here](#)

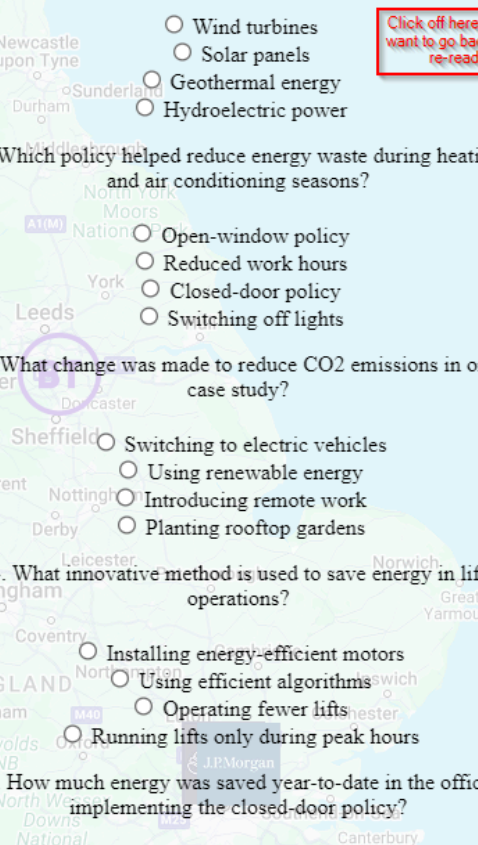

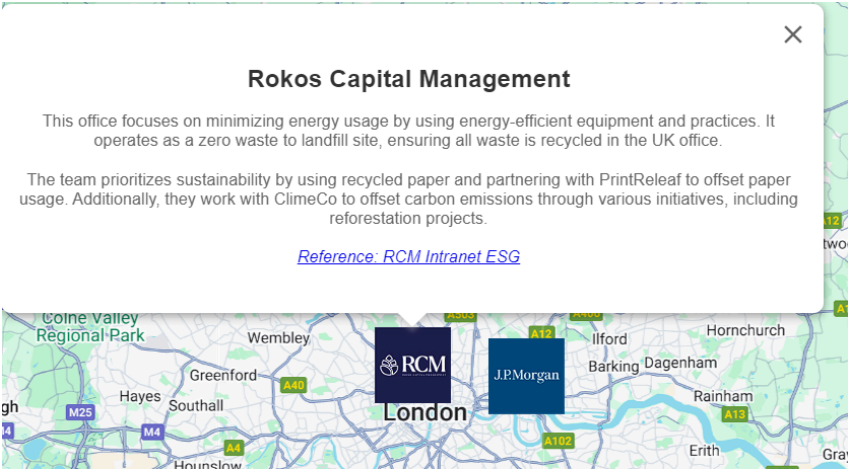

2. You will see a world map with a focus on London.
3. Click on the logos of the companies to learn more about what they do to meet SDG 12.

Exploring the Companies

As you click on each company logo, a number in the right-hand corner will go up from 0 to 5
Once you have discovered all five company locations, a quiz will appear to test your understanding of the content.

Open Quiz

3. You can select which office initiative you like the most and enter why that was

The image shows a quiz interface overlaid on a map of the United Kingdom. The quiz question is 'Which initiative do you like the most?'. Below the question are five radio button options: 'EE Retail Shop - Buchanan St.', 'BT Office - Sheffield', 'Rokos Capital Management', 'JP Morgan - Bournemouth', and 'JP Morgan - Bank Street, London'. Below the options is a text input field labeled 'Why?'. A blue 'Submit' button is located at the bottom right of the quiz area. The background map shows various cities and regions, including Wales, England, and parts of Scotland.

4. The pass mark is 60%.

5. If you pass the quiz, you will receive a certificate of completion.

Accessibility Options

The Fantastic Five has several accessibility options to make it easier for everyone to use the website:

- **Alternative text (ALT tags) for logos:** This helps visually impaired people understand what the logos represent.
- **Semantic HTML:** This makes it easier for text-to-speech systems to identify content on the page.
- **Keyboard navigation:** You can use the keyboard to navigate the website without using a mouse.
- **High contrast mode:** This makes it easier for people with low vision to see the content on the page. **(Still in development)**
- **Mobile Phone Friendly:** The Website adapts to the size of the screen
- **Text-to-Speech Functionality:** Ensures accessibility for visually impaired users.
 - a. To use this, first, click on a company logo
 - b. From there, click accessibility options then press the text-to-speech button
 - i. This will then start to read the information.
- **Adjustable Text Size:** Accommodates users with different vision needs. **(Still in development)**
